

PLANNING FOR OUR FUTURE

Artist's impression of proposed entrance approach

Bowmer + Kirkland has been selected by the Department for Education (DfE) as the main contractor on plans to regenerate Rivers Academy West London.

The current layout and building stock at the academy are inefficient, energy intensive and unable to meet modern learning standards. The DfE has tasked Bowmer + Kirkland with planning for the future of the academy in order to better accommodate students and staff, reduce costs, increase useable external space and provide improved facilities for the local community to share.

The project team has been working closely with the academy in preparation of the proposals and would like to invite the local community to review the plans at a public exhibition or via our website.
